## Z125 BR125MTFNN (GN1) / MTFAN (GY1) FEATURES

### **Powerful Engine**

125 cm3 4-stroke Single Smooth power delivery contributes to the Z125's 125 cm3 engine's feel-good performance. Like a typical Kawasaki engine, the engine delivers a good "punch" at high rpm, and continues to pull right up to the rev limiter. Reliability inherited from its robust 250cc base engine adds peace of mind. Six-speed transmission Smooth-shifting six-speed transmission complements the sporty street performance, offering a gear for every situation. Electric start & fuel injection

### **Sporty Suspension**

ø37 mm telescopic fork contributes to both light, nimble handling as well as a generally composed riding character. Kawasaki's original linkage-equipped Uni Trak rear suspension delivers a smooth ride over a wide range of road conditions.

## **Z Supernaked Styling**

Like its larger brothers in the Z Series, the Z125's aggressive styling hints at its sporty potential. A dynamic design created by its slim, hourglass figure is complemented by extremely lightweight looks care of sharp, close-fit bodywork and an original trellis frame.

## **Full-size Chassis**

The Z125 features a full-size chassis. With a slim, compact trellis frame, sporty suspension and lightweight 17" wheels, the light, nimble handling they offer is ideal for new riders to become familiar with operating a full-size motorcycle. Slim, compact trellis frame Trellis frame enables a slim, compact package that is easy to manage, and makes it easy to reach the ground with your feet.
